

My Reading Academy™ Scope and Sequence

My Reading Academy was developed based on the latest reading research and is aligned to rigorous state standards. Skills are taught in a strategic manner, building on previously learned skills and gradually introducing more complex ones. Our approach ensures that students have a solid foundation of skills before moving on to more advanced concepts. In addition to foundational skills, vocabulary and comprehension activities are designed to develop students' oral vocabulary while simultaneously building background knowledge on relevant science and social studies topics.
